Dear Mr. Secretary-General,

I am pleased to reconfirm that AUREN supports the ten principles of the G human rights, labour, environment and anti-corruption. With this communication advance those principles within our sphere of influence. We are committed to and its principles part of the strategy, culture and day-to-day operations of our collaborative projects which advance the broader development goals of the United Millennium Development Goals. *AUREN will* make a clear statement of this commitment and the general public.

The reason why we did not submit a Communication on Progress in the last year doesn't work here.

We recognize that a key requirement for participation in the Global Compact is Communication on Progress (COP) that describes our company's efforts to improve support public accountability and transparency, and therefore commit to reporting of joining the Global Compact, and *annually* thereafter according to the Global Compact

Sincerely yours,

Mario Alonso
Presidente Auren
